

# EXPERIENCE THE DIFFERENCE.

**TriVisc**. With over 35 million doses administered worldwide, TriVisc 3-injection Hyaluronic Acid is made from highly purified HA produced by bacterial biofermentation technology. TriVisc is trusted by doctors to help relieve OA-related knee pain in patients who are unresponsive to non-pharmacologic therapy and simple analgesics.<sup>1,2</sup>

**With TriVisc comes HARMOKNEE<sup>®</sup>, our comprehensive customer support services.** From ordering TriVisc, to accessing practice marketing materials, Harmoknee aims to eliminate the uncertainty and unnecessary busy work that can get in the way of your daily operations. You'll not only notice the difference, you'll experience the peace of mind that comes from HARMOKNEE.

### Pure<sup>1,2</sup>

- Highly purified HA produced by bacterial biofermentation technology<sup>†</sup>
- Removes the risk of avian allergies and sensitivities<sup>†</sup>
- Safe for repeat injection cycles<sup>†</sup>
- Fully automated manufacturing process reduces the risk of contamination and human error<sup>†</sup>

### Trusted<sup>1,2</sup>

- 35 million doses administered worldwide<sup>†</sup>
- TriVisc efficacy established by equivalence to Visco-3<sup>®†</sup>
  - Visco-3 determined to be non-inferior Euflexxa<sup>®†</sup>
- Supported by published clinical data<sup>†</sup>
  - TriVisc exhibited improvement in WOMAC and VAS scores compared to baseline<sup>†</sup>

3 injection hyaluronic acid regimen

Patients can purchase TriVisc directly and save money, while you retain control over the process. **The TriVisc Direct**

**Purchase Program** is designed for patients without an HA insurance benefit, or those who choose not to use insurance to pay for HA treatments. TriVisc can be purchased with a prescription directly from our partner pharmacy network, then shipped to your practice for scheduling and administering the treatments. Enrolling a patient in our Direct Purchase Program is easy. To learn about program eligibility and getting started, visit [triviscdpp.com](http://triviscdpp.com) or call us at 866-556-2259.

† Claims Data on File

Euflexxa® is a registered trademark of Ferring B.V. LLC. VISCO-3® and Supartz® are trademarks of Seikagaku Corporation.

The Adant® formulation is approved in 63 countries outside the US. Adant is manufactured by MEIJI PHARMA Spain, S.A. and is authorized to be marketed and distributed under the trademark TriVisc.

**TriVisc**

TriVisc is a sterile, viscoelastic non-pyrogenic solution of purified, high molecular weight sodium hyaluronate. Each 2.5 mL of TriVisc contains 10mg/mL of sodium hyaluronate dissolved in a physiological saline. The sodium hyaluronate is derived from bacterial fermentation. Sodium hyaluronate is a poly-saccharide containing repeating disacchride units of glucuronic acid and N-acetylglucosamine.

**Indications and Usage**

TriVisc is indicated for the treatment of pain in osteoarthritis (OA) of the knee in patients who have failed to respond adequately to conservative non-pharmacologic therapy and simple analgesics, e.g. acetaminophen.

**Directions for Use**

TriVisc is administered by intra-articular injection. A treatment cycle consists of three injections given at weekly intervals. Injection of subcutaneous lidocaine or similar local anesthetic may be recommended prior to injection of TriVisc.

**TriVisc Coverage**

- Covered under Part B of Medicare
- Assigned a unique reimbursement code: J7329
